CHECK OUT OUR PROGRAMS

We are EU Grow

EuGrow Sdn Bhd specializes in soft skills training to develop young adults and equipping them with LIFE skills; tools that are essential in facing today's fast paced and driven world. Increasingly we need to root ourselves with strong belief systems, good attitudes, strong communication skills and work ethics in order to be effective citizens of the world.

Image

Our APS series of programs have been proven by documented feedback and structured assessments to meet the key identified learning outcomes. The three pillars of our APS programs, Articulation, Presentation & Self-Confidence, embody our commitment to "Growth for Youth" that is based on **NUTURE, STRIVE & EMPOWERMENT**.

Nurture

The process of nurturing is vital to the development of young minds. We support young individuals to thrive in a physical, cognitive, social, and cultural learning environment, and skills development programmes that allow them to develop to their fullest potential.

Image

Strive

While we acknowledge the fact that nobody is perfect, we believe that anybody given the right support and mind-set, will be able to achieve advancement in Articulation, Presentation and Self-confidence.

Image

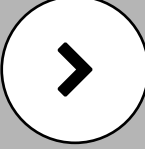

Empowerment

EuGrow thrives not only in developing young minds but also empowering its own people. We walk the talk and provide opportunities for each and every team member to advance in terms of Articulation, Presentation and Self-confidence.

Kids APS

The development of self-esteem is one of the important goals of Kids APS. With our Live APS (Articulation, Presentation & Self-Confidence) program, we will facilitate the process of helping your child feel good about who he/she is and be confident in his/her ability to tackle the challenges of learning.

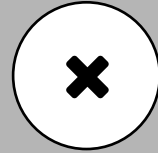

Our Program comprises the Fundamentals of Mastering English, Early Learning Program and our Experiential Methodology. Our Australian and Malaysian qualified mentors also provide the opportunity for children to be exposed to different cultures. Opening windows to another world plays a wonderful role in a child's over-all socialization and the chance to enjoy both worlds – Western and Asian!

Youth APS

Youth APS aims to help the participants build self-confidence through creation of awareness that there are many resources and tools at their disposal to ensure constant self-accountability in personal development and acceptance that life is a continuous work in progress.

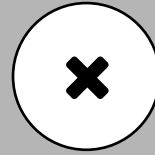

Our courses ensure that we are able to equip students with the necessary soft skills (A - Articulation, P -Presentation, S - Self-confidence), which are essential in facing the challenges of everyday life.

OZ Live

Fresh APS

OZ Live

Oz Live is our unique program for Malaysian teenage students offering a full experience of the Australian way of life with practical, interactive approach focusing on continued learning and application. It is a 5-day camp that embraces creativity, music, active participation and a whole lot of fun.

OZ Live is held at campsites managed by the Australian State Government and provides an ideal setting for outdoor adventure. Our mentors and facilitators are qualified, relevant Australian professionals with a passion to see growth in young lives. Their focus is on building relationship during the program and beyond.

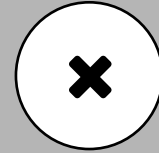

OZ Live is open to all Malaysians aged 16-19.

Internships provide opportunities for students to put academic knowledge into practice in a workplace setting. It provides the platform for exposure to industry and business practices, gaining professional experiences and skills as well as potential future employment.

Structured - We believe that executing a well-developed training program based on tangible goals and objectives is essential to ensuring fruitful results.

Assessed - Meaningful experience is a must and interns benefit from reflection and evaluation of these experiences.

Mentored - Programs lacking solid, structured mentorship may compromise the quality of the internship experience. Close supervision, guidance and relationship building are essential factors in ensuring meaningful learning experiences.
